

IF WE TRY

Refrain:

*Let's put our heads together
And share a thing or two
Let's put our heads together
Let's see what we can do*

If I could make you happy
Would you love me too
If you make that change
I will care for you
We can make the world better
We can live for ever
If we try

Refrain

If I could climb a tree
Would you help me down
If you're feeling blue
I will comfort you
We can laugh together
We can live in peace
If we try

Refrain

If I could not do something
Would you help me learn how
If you had troubles
I will help you
We can save the world
We can change the world
If we try

Refrain

If I could fly like a bird
Would you come fly with me
If you're feeling blue
I will comfort you
We can live our lives
We can share our strife
If we try

Refrain

If I could go to the moon
Would you come too
If you go to Mars
I will reach for the stars
We can dance on the sun
We can have some fun
If we try

If you're feeling down
And you've made a frown
I'm gonna make you smile
If you're in pain
Just call my name
I'll help you out

Refrain
